Borehole stress measurement using hydraulic fracturing and overcoring

Stress measurement from tunnel surface using new LVDT method

New way to measure rock stress

- New method way to measure rock stress from tunnel surface
- It is fast, cheap and reliable
- Deepest mines in Scandinavia rely on our technology

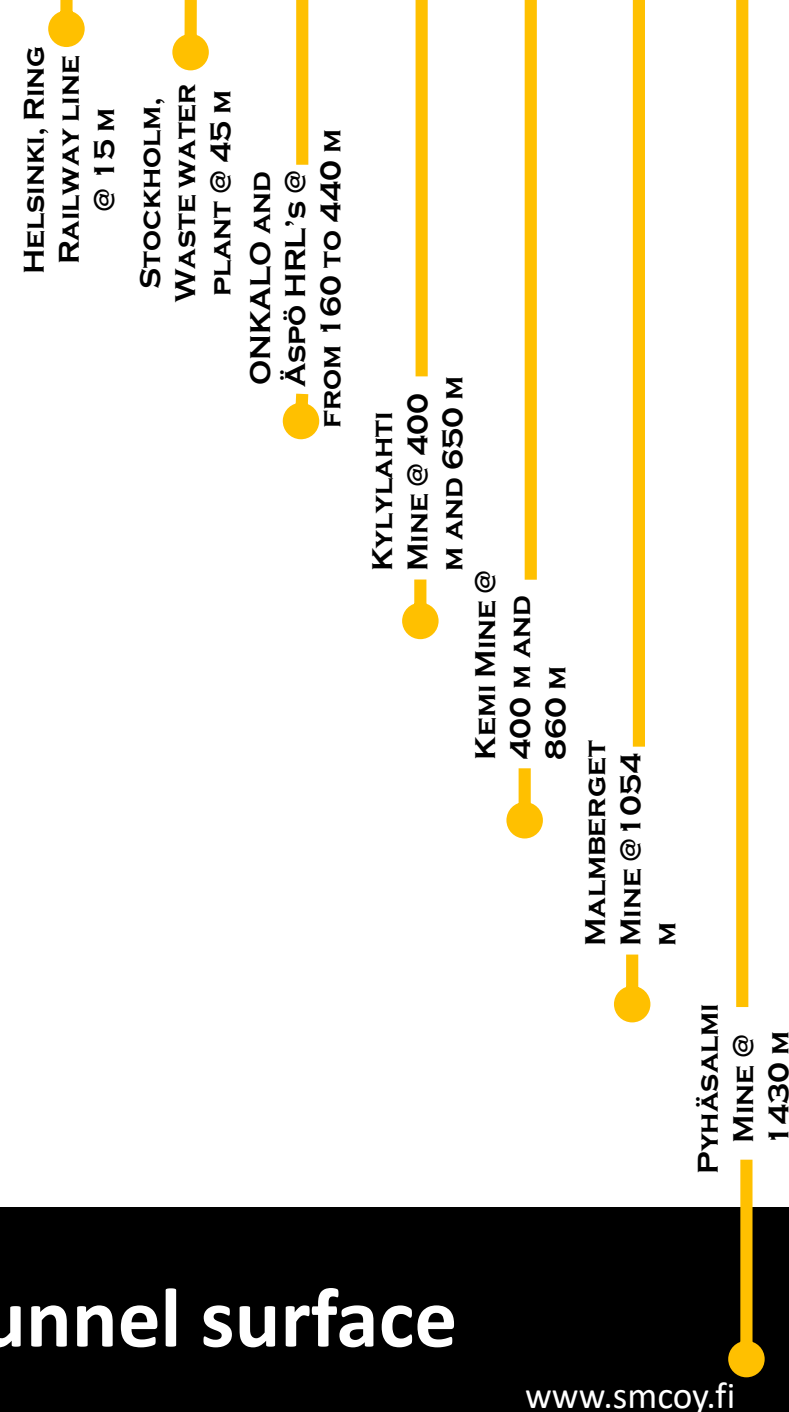

**STRESS
MEASUREMENT
COMPANY OY**

Measure rock stress from tunnel surface

www.smcoy.fi

Know your stresses to

- Reduce support costs
- Support unstable areas in advance
- Decrease waste rock dilution
- Less ore left to pillars
- Less Fall of Ground accidents (Safety)
